

Mozilla FireFox

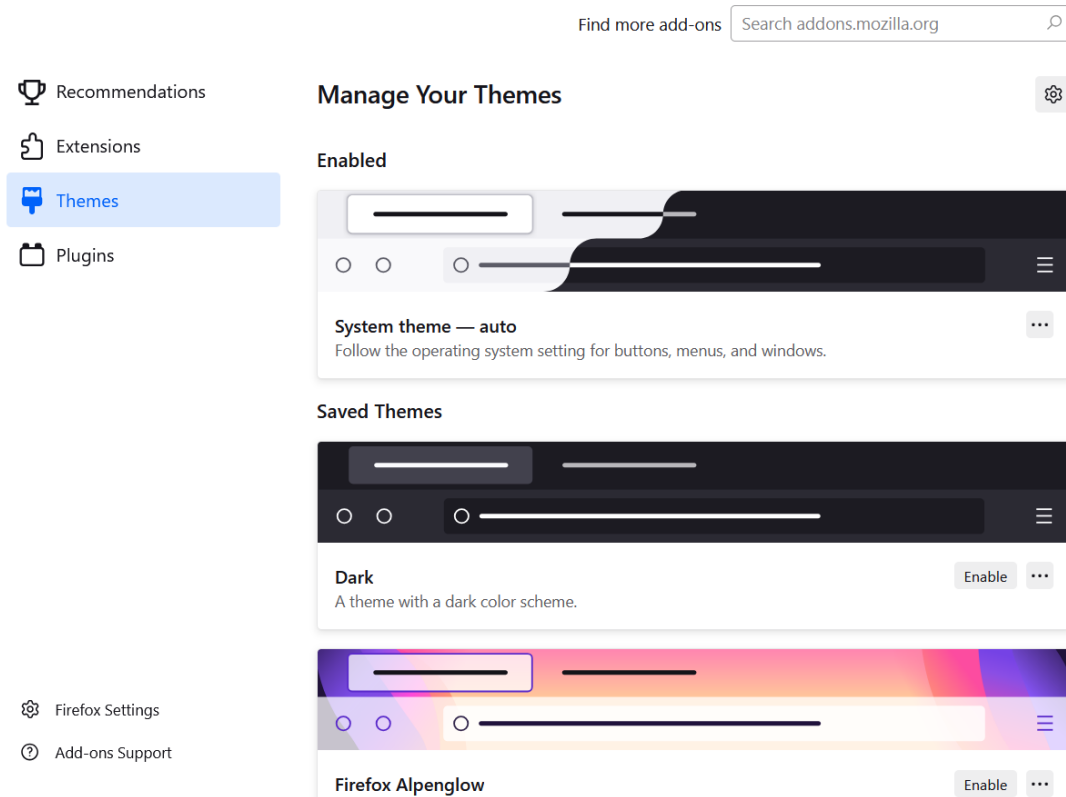

Poslovna OS rešenja

Mozilla Firefox

- Open-source web pregledač
- Razvija Mozilla zajednica
- Fokus na privatnost korisnika
- Podržava otvorene standarde
- Jedan od najpoznatijih browsera

Uvod

-
- Pregledač za pristup internetu
 - Besplatan za korišćenje
 - Dostupan na više platformi
 - Jednostavan za instalaciju
 - Široko rasprostranjen širom sveta

Istorija Firefox-a

- Nastao 2002. godine
- Razvijen iz Mozilla projekta
- Prvobitno nazvan Phoenix
- Kasnije preimenovan u Firefox
- Kontinuirani razvoj i unapređenja

Mozilla organizacija

- Nefitna organizacija
- Promoviše otvoreni internet
- Razvija web tehnologije
- Podržava privatnost korisnika
- Okuplja globalnu zajednicu

The screenshot shows the Mozilla Style Guide page for Firefox branding. The page has a navigation menu on the left with categories like HOME, IDENTITY, MOZILLA, FIREFOX FAMILY, FIREFOX BROWSER, BRANDING, CHANNELS, WORDMARKS, COLOR, FIREFOX OS, MARKETPLACE, and WEBMAKER. The main content area is titled "Firefox branding" and includes a "Guidelines" section with a list of rules for using the logo. To the right, there is a large image of the Firefox logo and a "Download" section with buttons for EPS, JPG (300dpi), and PNG. The Mozilla logo is in the top right corner.

Guidelines

For all permitted uses of our trademarks, you may not:

- alter our logos in any way
- place a logo in such close proximity to other content that it is indistinguishable
- make our logo the most distinctive or prominent feature on your website, printed material or other content
- use our logos in a way that suggests any type of association or partnership with Mozilla or approval, sponsorship or endorsement by Mozilla (unless allowed via a license from us)
- use our logos in a way that is harmful, deceptive, obscene or otherwise objectionable to the average person
- use our logos on websites or other places containing content associated with hate speech, pornography, gambling or illegal activities
- use our logos to, or in connection with, content that disparages us or sullies our reputation

Download

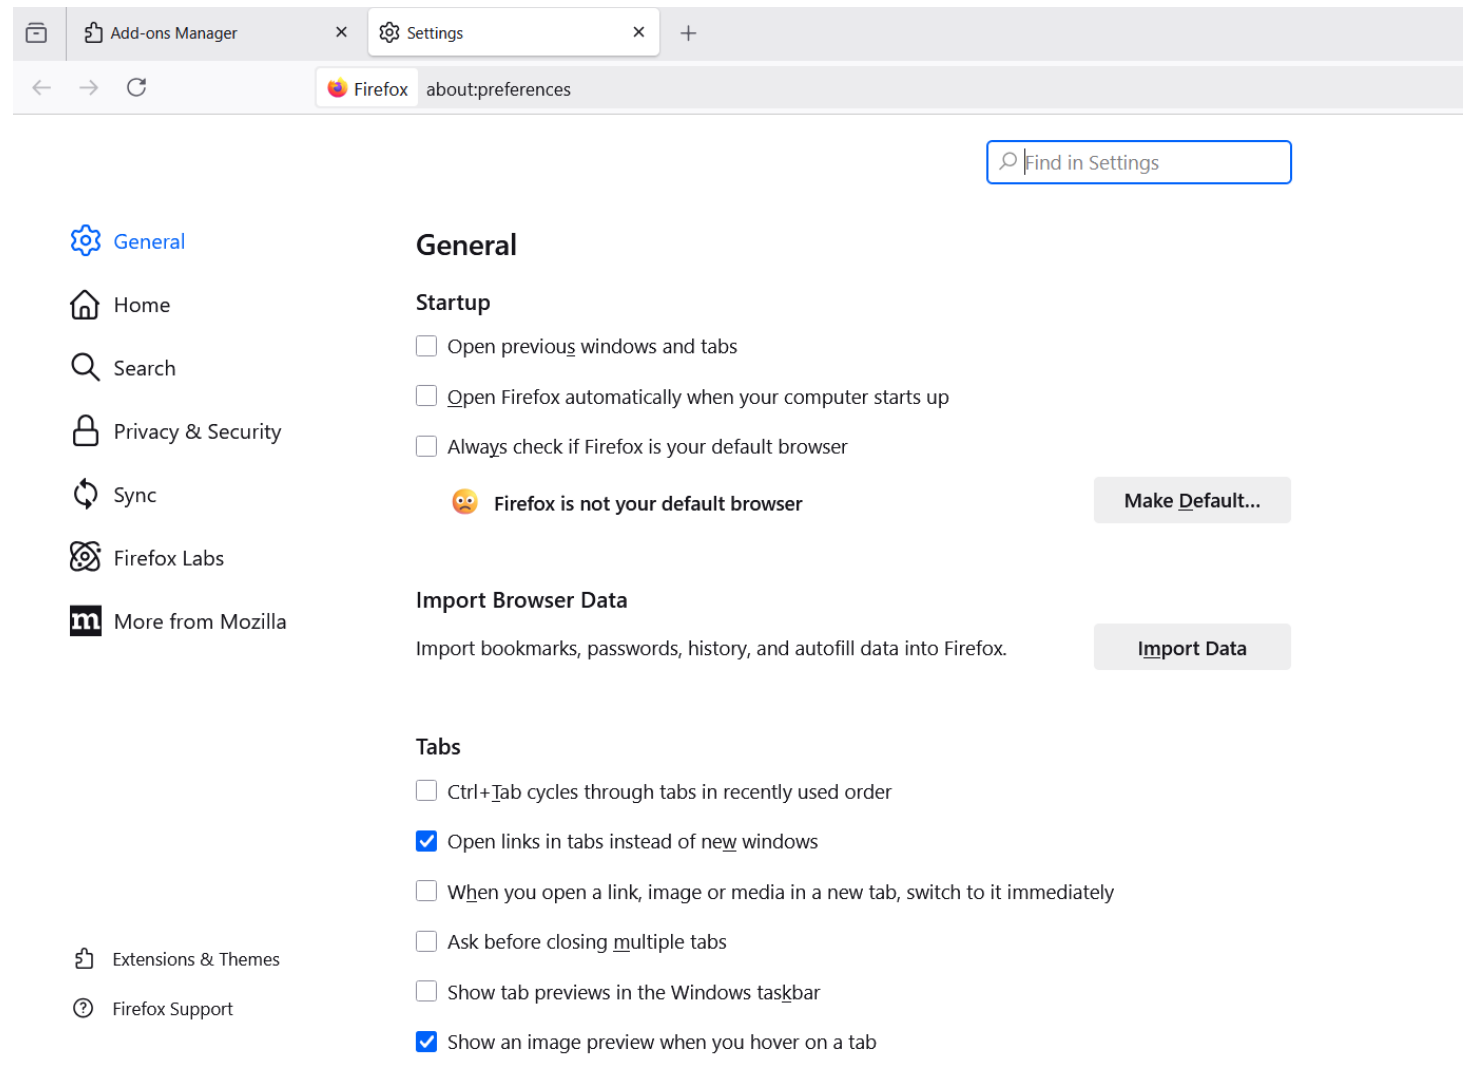

EPS JPG (300dpi) PNG

Prednosti otvorenog koda

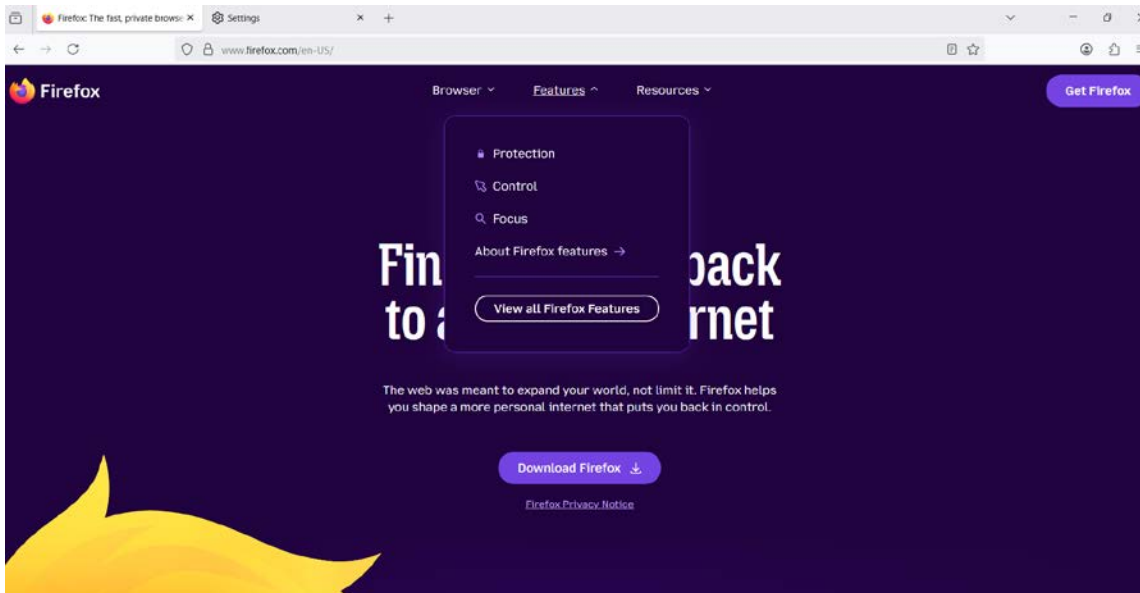

- Besplatno korišćenje
- Nema troškova licenci
- Veća bezbednost
- Brže ispravljanje grešaka
- Fleksibilnost razvoja

Korisnički interfejs

- Jednostavan dizajn
- Kartice za rad
- Adresna traka
- Meni za podešavanja
- Intuitivna navigacija

Osnovne funkcije

- Otvaranje web stranica
- Upravljanje karticama
- Preuzimanje datoteka
- Upravljanje obeleživačima
- Istorija pretrage

Privatnost korisnika

- Zaštita podataka
- Blokiranje praćenja
- Kontrola kolačića
- Privatni režim rada
- Upravljanje dozvolama

PRIVACY & SECURITY

How Firefox Protects Your Data

Here's the big picture: Firefox is built with privacy and protection as the default. We don't know that much about you. What little we do know, we never sell. And we give you the most choice of anything on the internet to turn off the stuff that annoys you.

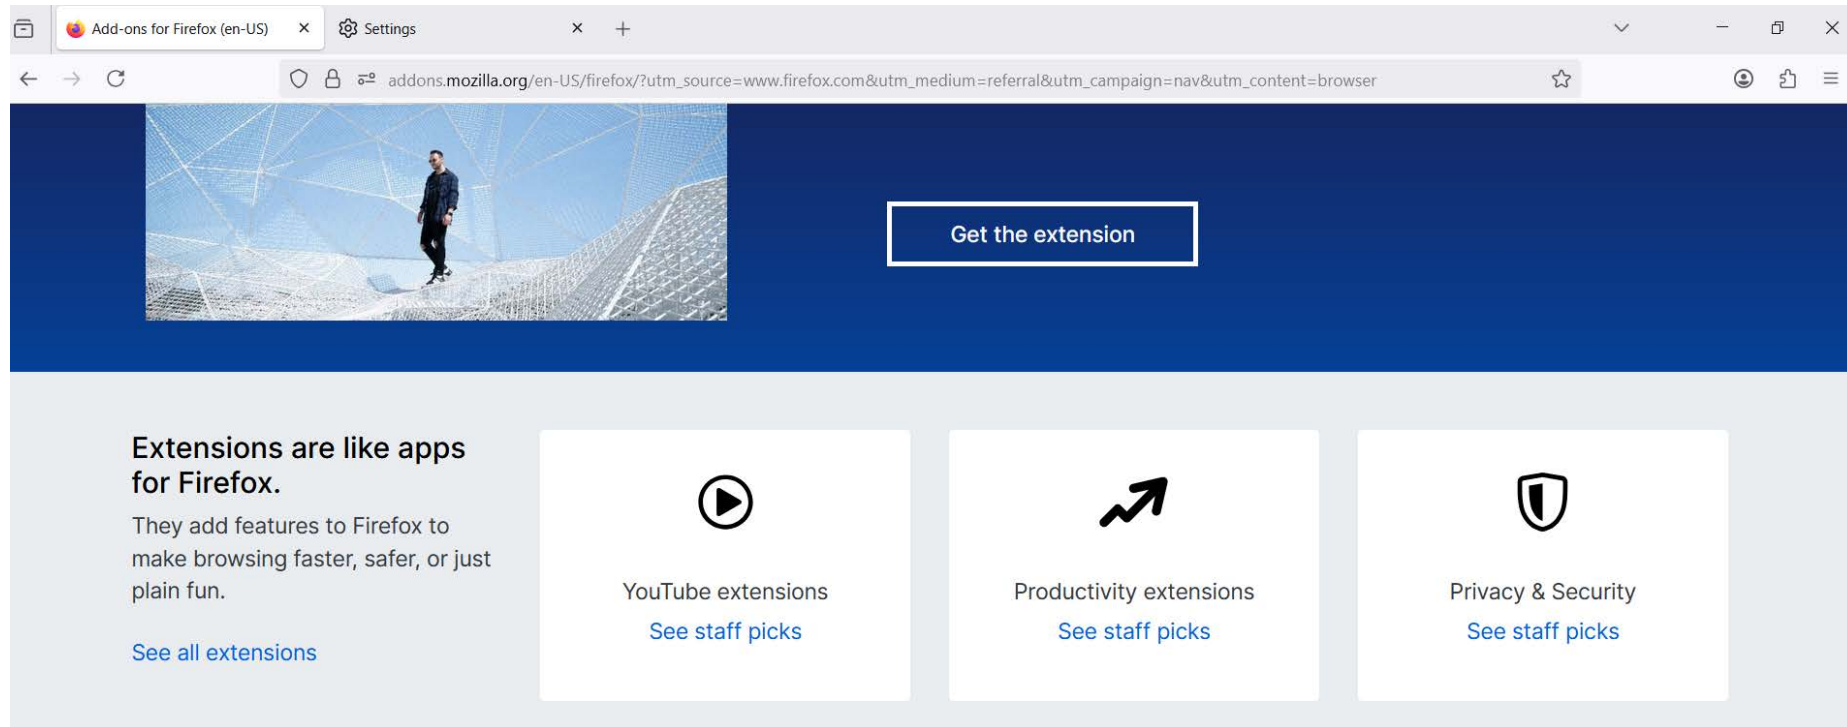

Firefox Sync

- Sinhronizacija uređaja
- Deljenje obeleživača
- Sinhronizacija lozinki
- Istorija pregledanja
- Rad na više uređaja

Firefox[®] Sync

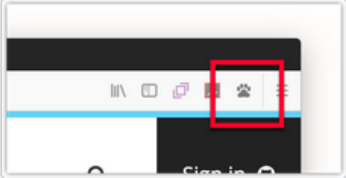

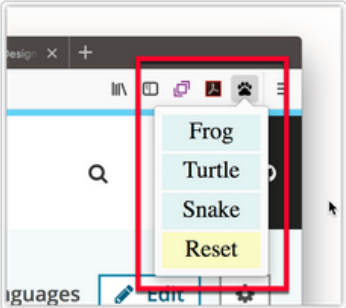

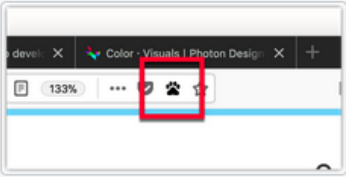

Dodaci (Extensions)

- Proširenje funkcionalnosti
- Blokatori reklama
- Alati za produktivnost
- GIS i razvojni alati
- Personalizacija pregledača

Teme (Themes)

- Promena izgleda
- Personalizacija interfejsa
- Tamni režim rada
- Svetli režim rada
- Korisnički dizajn

UI option	Description	Example
Toolbar button (browser action)	A button on the browser toolbar that dispatches an event to the extension when clicked. By default, the button is visible in all tabs.	
Toolbar button with a popup	A popup on a button in the browser toolbar that opens when the button is clicked. The popup is defined in an HTML document that handles the user interaction.	
Address bar button (page action)	A button on the browser address bar that dispatches an event to the extension when clicked. By default, the button is hidden in all tabs.	

Alati za programere

- Pregled HTML koda
- CSS analiza
- JavaScript konzola
- Mrežni saobraćaj
- Debugging alati

Add the devtools page by including the `devtools_page` key in extension's `manifest.json` and provide the location of the page's HTML file in the extension:

JSON

Copy

```
"devtools_page": "devtools-page.html"
```

From the devtools page, call a script that will add the devtools panel:

HTML

Copy

```
<body>
  <script src="devtools.js"></script>
</body>
```

In the script, create the devtools panel by specifying the panel's title, icon, and HTML file that provides the panel's content:

JS

Copy

```
function handleShown() {
  console.log("panel is being shown");
}

function handleHidden() {
  console.log("panel is being hidden");
}
```

Podrška za web standarde

- HTML5
- CSS3
- JavaScript
- SVG grafika
- WebAssembly
